How does the telemedicine benefit work?

Telemedicine / virtual visits will be available to all health plan members. With this benefit, you'll be able to see and talk to a participating doctor from your cell phone or computer using a webcam.

Do I HAVE to access the State Health / ADP enrollment portal this OE?

That depends...

Current Health plan participants who wish to remain in the same option are not required to access the SHBP portal. Current health coverage WILL roll-over and SHBP ADP online access isn't required. The tobacco surcharge will carry over only if currently applied.

Changes in health plan options or adding or removing dependents requires online access in the SHBP / ADP site. If you are a current health plan member and wish to *terminate coverage* for 2022, SHBP ADP online access is required.

If you *aren't enrolled* currently, and don't want coverage in 2022, you do not need to access the site.

Will the Tobacco Surcharge be added to my premium if I don't access the SHBP ADP portal?

The state Tobacco Surcharge (\$80 / month) still exists (when applicable). If you are currently assessed a Tobacco Surcharge, then this fee will carry forward to your 2022 election.

What dependent documentation must I provide to ensure coverage?

State Health requires dependent documentation for all newly added dependents. State Health or ADP will contact you with instructions and deadlines for submitting dependent documents (ex: marriage license, birth certificates, etc.). Look for their request and be sure to respond timely, as dependents will be placed in a pending status for coverage unless proper documentation is submitted (by the state's deadline). If you add a new dependent on your plan and do not receive a documentation request from SHBP/ADP, contact them at 1-800-610-1863 to have a request sent to you. Your dependents will not be covered until the documentation is reviewed / approved by State Health.
